

Inkjet vs. Thermal: Key Point Intelligence Test

Sep 2024

ColorWorks
Do labels differently

EPSON[®]

ColorWorks C6000 vs. a top selling thermal transfer label printer printing 1,000,000 labels

Research

- Keypoint Intelligence June 2024 performance evaluation, commissioned by Epson, of the ColorWorks C6000 vs. a top selling thermal transfer label printer over the course of printing 500,000 labels in a controlled environment and 500,000 labels in a warehouse environment

Goal:

- Compare ColorWorks CW-C6000 vs. top selling thermal transfer printer on the following features:
 - ✓ Reliability
 - ✓ Image quality
 - ✓ Less interventions
 - ✓ Sustainability
 - ✓ Security

ColorWorks C6000 vs. a top selling thermal transfer label printer printing 1,000,000 labels

TOTAL: 1 Million Labels completed

- **Phase I:** 500,000 labels printed in Lab environment
- **Phase II:** 500,000 additional labels in Warehouse environment

ColorWorks C6000 printing 1,000,000 labels

The CW-C6000
consistently delivered
